

Infection Control Guide

Hospital Knowledge Base • Dummy Educational Data

Hand Hygiene

Perform hand hygiene at appropriate times, including before and after relevant patient-care activities.

Personal Protective Equipment

Use appropriate protective equipment when required by hospital procedures.

Isolation

Follow instructions for isolation or restricted areas when applicable.

Respiratory Hygiene

Cover coughs and sneezes and follow hospital instructions for respiratory infection prevention.

Cleaning

Hospital areas and equipment should be cleaned and disinfected according to established procedures.

Waste Management

Clinical waste should be separated and disposed of according to hospital procedures.
